

TOPIC: PROJECT FRAMEWORK

Activity # 2: Project System Model

Instructions

1. Revisit your project and finalize the System Model/Solution to be used to achieve project objectives.
2. Design a project framework.

Example:

Project Title: Voucher Creation App for Island-Hopping Booking

The current state of the system

1. Slow manual document creation.
2. Lack of guest information tracking.
3. No form of recordkeeping.
4. Prone to errors while inputting guest information.

Purpose:

1. Increase of efficiency of document creation.
2. Accuracy and tracking of guest information encoding.
3. Enable recordkeeping of approved documents.

Objectives:

The project should be able:

1. To maximize efficiency of document creation.
2. To allow the user to track previous guest information and to bolster accuracy.
3. To establish a recordkeeping system.

PROJECT FRAMEWORK

Sketch your proposed project framework below.
